

# Visual Proposal: Effect of Remote Workers

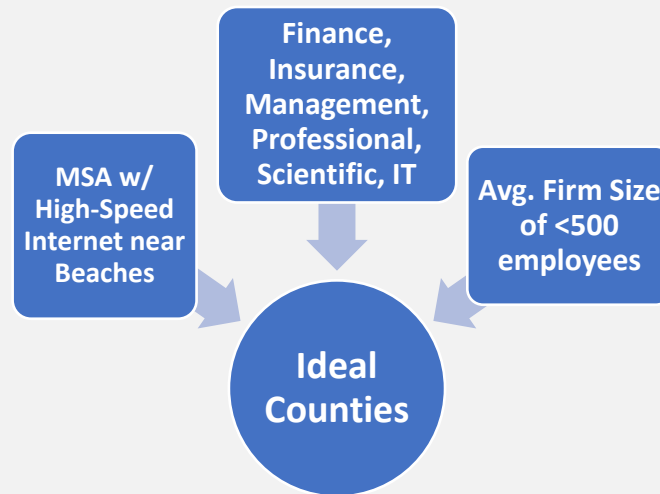

Client: Florida Department of Economic Opportunity (DEO)

**Background:** Since the COVID pandemic, Florida has seen a large increase in numbers of remote workers. Many are workers in Florida companies, and many are now living in Florida working for companies in other states.

**Research Prompt:** What are the economic and fiscal effects of this increase in remote work on Florida industries, the labor force, and for local government that rely on businesses to support their tax base?

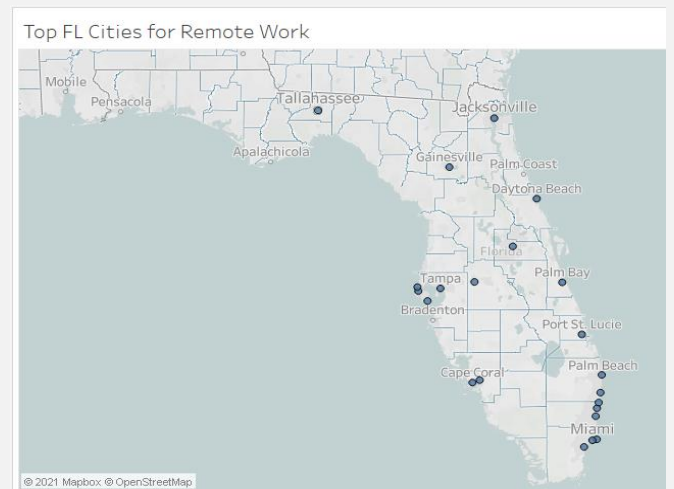

**Research Prompt:** What types of Florida counties should make efforts to recruit more remote workers?
